Generation Faraday: Implementation Styles

Implementation Type	Purpose	Approach	Generation Faraday Equipment [Download our brochure]	
Bell-to-Bell - phones locked away	Ideal for schools who want a phone-free environment throughout the entire school day while only allowing students to have access to their phones during immediate entry and dismissal. *App Usage: Assign a phone bag's serial number to a student using our serialization process. Upon entry each day, students would grab their assigned phone bag & carry it throughout the day.	Students will… • Receive their phone bag upon entering school and keep it with them throughout the day. • Ensure the bag is securely closed and locked upon entry and remains so until the end of the school day. • Use designated unlocking stations (unlock docks fastened to the wall, a stand, or handheld) to open the bag at the end of the school day and then place it in the assigned storage area.	Phone Bags	Max Lock
			Unlocking Devices	Unlock Dock Mounted Handheld Unlock Dock Handheld Unlock Key
			Storage	Phone Hotel (phone bag friendly)
Bell-to-Bell - phones accessible	Ideal for schools who want a phone-free environment during instruction while being flexible with students accessing their phones throughout the day. Schools using this method often have dedicated times when students can use their phones. *App Usage: Assign a phone bag's serial number to a student using our serialization process. Upon entry each day, students would grab their assigned phone bag & carry it throughout the day.	Students will… • Receive their phone bag upon entering school and keep it with them throughout the day. • Ensure the bag is closed during instructional times. Use phones during permitted times, such as during lunch or transition. • Place the phone bag in the assigned storage area at dismissal. 			Unlocking Devices	Not applicable
			Storage	Phone Hotel (phone bag friendly)
Tiered Intervention	Ideal for schools who prefer to confiscate or secure phones only when students violate the phone-free policy. Also, ideal for schools who prefer to use the Max-Lock phone bags as the next step in their discipline ladder. *App Usage: not applicable unless assigning students a phone bag's serial number	When there is a violation of the phone-free policy, students will… • Upon request, hand their phones to the staff member, who will in turn, place the device into a phone bag or storage unit. • The phone bag is then kept with the student, remains with that staff member, or sent to the front desk. • The student will retrieve their phone at the end of the class or school day. If applicable, admin or a designee will unlock the phone bag.	Phone Bags	Max Lock Max Magnetic Max Velcro Pro Magnetic (cloth) Pro Velcro (cloth)

			Storage	Phone Hotel (phone bag friendly) Shielded Box
Store and Away	Ideal for schools who prefer that students' phones are not kept on their person, and instead opt for smart devices to be stored in a storage unit throughout the day or class period. *App Usage: not applicable unless assigning students a phone bag's serial number	Upon entering school or a classroom, students will… • Put their smart device in a phone bag, and then place it in their locker. OR • Put their smart device in a phone bag, and place it in the phone hotel. OR • Put their smart device in a signal-blocking storage box. • At the end of the class or school day, students will retrieve their phones. • If phones are kept in a Max-Lock phone bag, Use designated unlocking stations (unlock docks fastened to the wall, a stand, or handheld) to open the bag at the end of the school day.
